

Develop a word count program using Pig Latin. Wordcount with random lines saved as input.txt

```
cd Desktop  
cd rmmmbdalab  
pig -x local
```

```
gedit wordcount.txt
```

```
lines = LOAD '/home/cse21/Desktop/rmmmbdalab/wordcount.txt' AS (line:Chararray);  
dump lines
```

```
words = FOREACH lines GENERATE FLATTEN(TOKENIZE(line)) as word;  
dump words
```

```
grouped = GROUP words BY word;  
dump grouped
```

```
wordcount = FOREACH grouped GENERATE group, COUNT(words);  
dump wordcount
```
